SECRETARY/SPEAKER OF THE NATIONAL ASSEMBLY

Subject: **ANT-MARIJUANA LIGALIZATION CITIZENS IN NAMIBIA**
22/05/2019

As concerned citizens of the Republic of Namibia, we strongly wish to draw your attention to the recent protest that took place on the 19th April 2019 in the streets of Windhoek, demanding the amendment of Act 41 Of 1971 in favour of legalization of marijuana.

It is against this background that, we, as concerned Namibian citizens strongly challenge their demand. The main psychoactive part of cannabis is tetrahydrocannabinol (THC) that is known as highly addictive. For the love of the Namibian nation and the future generation of this country, we feel the legalization of marijuana; will make it more easily accessible and therefore more widely used and misused.

We plead that our government and law makers should not be driven vague by some elements for their own personal gain on the cost of the lives of our nation. People in our society, at the moment, from different generation; young Namibian men and young women plus innocent children become victims of marijuana. Many young marijuana users drop out of school, and this put the future of Namibia at stake. Not only that, many marijuana users have been kicked out of employment and some are unproductive employees due to the addiction of marijuana.

Patric Condron states some effect of marijuana addicts as:

- Impairment in cognitive functioning
- Impairment in learning

- Impairments of motor control and reaction time
- Disruption of all stages of memory
- Acute depressive reactions
- Panic reaction

People living with marijuana users have concrete evidence not only on what is as stated above, but also to:

- Debts
- Theft
- Stubborn
- Sleeping most of the time (even a whole day or days after days)
- Domestic violence
- Vandalizing of property

In Namibia we have the Turning Point Rehabilitation Center whereby many of the inmates are x-marijuana users. These youths are valuable resources should the nation wish to hear it from the camel's mouth. Another useful source of information on this background is our neighboring country South Africa that has just legalized marijuana. The number of the inmates Kwasizabantu; a rehabilitation centre in South Africa, has been doubled if not tripled. More evidence will be found at [www.preciusyouth.co.za](http://www.preciousyouth.co.za).

Prevention is better than cure. Therefore the demand of that ill-informed group must be stopped before it is too late.

Should marijuana be legalized in our lean population, the future of this country is at stake. This country will be turned to a dangerous place; not because of those who use marijuana and other drugs, but because of those who look on and do nothing. Therefore, if we look on and do nothing about their demand of marijuana legalization, then development of our beloved and beautiful country and her vision 2030 should not be realized.

The group is demanding an operation by the police in search for marijuana growers in the whole Namibian society.

The group is demanding the punishment of marijuana culprits to be tough.

The group is demanding the Bible Education back in schools at full swing.

Yours Sincerely

Mrs. Sarah Elago
Group Leader

A group of protestors marched demanding for recreational marijuana legalization in Namibia. If you are a peace loving Namibian, please be part of a large group of Namibians that are **NOT on board with the legalization of recreational marijuana**. We therefore humbly request you to take a moment and think about what it will be in the communities across Namibia, should marijuana be recreational legalized.
